SUMMARY

Web Developer who studied at UCSD coding bootcamp. Enjoys merging background in business with creating interactive user experiences that all users can understand. Quick learner and highly creative in regards to unique perspectives for problem solving and innovating website interactions. Strong commitment to mastering javascript and related libraries including JQuery and React. Works well in both collaborating with others or independently on projects.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript

Applications: React.js, Node.js, Bootstrap, JQuery, Express, MySQL, MongoDB, Firebase, Git

PROJECTS

Winnable | Live: www.winnable.herokuapp.com

Code: www.github.com/randomslap/Project-3

Application to create and search for Overwatch teams and players with a page to check any game stats. Utilizes Overwatch API and login system integrated with MongoDB to store user profiles.

Garage Sail | Live: www.garage-sail.herokuapp.com

Code: www.github.com/loganbertrand/project2app

Web application for posting and finding garage sales in your area. Utilizes MySQL to store user information and present it back to the client.

EXPERIENCE

Miva, San Diego, CA — Executive Assistant
